# Strategic PMO Setup and Transformation for Agile Enterprises

## COURSE OVERVIEW
This course delves into how Project Management Offices (PMOs) can be established, restructured, and adapted to support organizational agility and strategic impact. A modern PMO goes beyond traditional reporting and control, serving as a driver of alignment, governance, and value delivery in fast-changing environments. This course equips participants with frameworks, tools, and case studies to design, transform, and lead PMOs that foster agility, innovation, and sustainable business performance.

## WHO SHOULD ATTEND?
This program is designed for PMO directors, project portfolio managers, program leaders, and senior executives responsible for organizational transformation. It is also valuable for governance professionals, strategy officers, and consultants seeking to strengthen enterprise agility and align project delivery with long-term strategic objectives.

## COURSE OUTCOMES
Delegates will gain the skills and knowledge to:
- Define the strategic role of PMOs in agile enterprises.
- Establish PMOs that align with organizational strategy.
