Compliance and Risk Management in Projects

COURSE OVERVIEW

This course is designed to help professionals integrate compliance and risk management into every phase of the project lifecycle. In today's complex regulatory and stakeholder environments, successful project execution depends not just on delivery but on accountability, transparency, and risk foresight.

Delegates will gain practical skills to identify project risks early, implement mitigation strategies, and align project practices with regulatory frameworks and organizational governance policies. The course bridges technical risk frameworks with real-world project demands across sectors.

WHO SHOULD ATTEND?

This course is designed for Project Managers and Project Officers, Compliance Officers and Risk Analysts, Program Managers in Public or Private Sectors, Internal Auditors and Legal/Contract Teams, and Senior Executives overseeing large or regulated projects.

COURSE OUTCOMES

Delegates will gain knowledge and skills to:

- Understand core principles of project compliance and risk governance
- Identify, assess, and prioritize risks using recognized frameworks (e.g., ISO 31000, PMBOK)
- Develop and implement effective compliance monitoring systems
- Align projects with legal, ethical, and operational standards
- Integrate compliance reporting and documentation into project workflows
- Build risk registers, mitigation plans, and stakeholder response strategies
- Communicate risks and compliance issues confidently to stakeholders

KEY COURSE HIGHLIGHTS

At the end of the course, you will understand:

- Learn to apply ISO 31000 and risk-based thinking in project environments
- Build real-world risk registers, mitigation plans, and escalation paths
- Explore compliance in regulated sectors: finance, infrastructure, public works
- Use case studies and simulations to test risk response strategies
- Gain ready-to-use templates for risk tracking, reporting, and compliance logs
- Navigate legal, ethical, ESG, and operational compliance issues in projects
- Designed for professionals managing public or donor-funded projects

All our courses are dual-certificate courses. At the end of the training, the delegates will receive two certificates.
1. A GTC end-of-course certificate
2. Continuing Professional Development (CPD) Certificate of completion with earned credits awarded
