

Mining Project Financing, Partnerships, and Global Investment Strategies

COURSE OVERVIEW

This course guides delegates through the understanding of mining project financing, investment partnerships and global funding strategies essential for driving sustainable mining ventures. It explores the financial lifecycle of mining projects, from exploration to production, with a strong focus on investment structuring, risk management, capital sourcing and international financing models. Through practical case studies and factual applications, delegates will learn how to evaluate funding opportunities, engage with global investors and build successful financing partnerships that support long term value creation in the mining sector.

WHO SHOULD ATTEND?

This course is tailored for mining executives, project managers, financial analysts, government officials, legal advisors and investment professionals involved in natural resource development. It is also highly relevant to consultants, policy makers, and stakeholders seeking to enhance their knowledge of global mining finance, partnerships, and investment strategy execution.

COURSE OUTCOMES

Delegates will gain the skills and knowledge to:

- Understand the fundamentals of mining project financing and investment cycles.
- Analyze risk-return profiles and structure financing solutions for mining projects.
- Develop strategies to attract and negotiate with international investors and partners.
- Apply global best practices in project evaluation, due diligence, and investment structuring.
- Build sustainable financing models that align with stakeholder expectations and market trends.
- Assess the impact of economic, regulatory, and ESG factors on mining investments.

KEY COURSE HIGHLIGHTS

At the end of the course, you will understand;

- Comprehensive overview of mining finance, investment models, and partnership frameworks.
- Practical case studies on global mining financing and project partnerships.
- Tools and frameworks for financial risk assessment and investor engagement.
- Insights into international mining markets, funding sources, and investment trends.
- Interactive sessions with industry experts and opportunities for peer-to-peer learning.

All our courses are dual-certificate courses. At the end of the training, the delegates will receive two certificates.

1. A GTC end-of-course certificate
2. Continuing Professional Development (CPD) Certificate of completion with earned credits awarded
