Accreditations & Recognition

British Accreditation Council has been responsible for setting standards within the independent, further and higher education sector in the UK and overseas for over 25 years.

The GTC Group is proud to be a PMI® approved Registered Education Provider (R.E.P) Global Provider Enrolment Level. As a PMI® R.E.P. we are pre-approved to offer professional development units (PDUs) for existing PMI® qualifications; helping delegates acquire or maintain their PMP® certification with ease.

The GTC Group has been recognised as a leading, global provider of CPD accreditation. Accredited CPD training means the learning activity has reached the required continuing professional development standards and benchmarks. The learning value has been scrutinised to ensure integrity and quality. The CPD certification service provides recognised independent CPD accreditation compatible with global CPD requirements.

The CIPR advances professionalism in public relations by making its members accountable to their employers and the public through a code of conduct and searchable public register. Therefore, setting standards through training, qualifications, awards and the production of best practice and skills guidance, facilitating Continuing Professional Development (CPD), and awarding Chartered Public Relations Practitioner status (Chart.PR).

CMI offers practical, proven solutions for individual managers, employers and education providers alike. Our mandate is to create better led and managed organisations - that's why over 100,000 managers and 450 employers use our services to improve their performance.

Awards

The GTC Group was awarded the dual accreditation in recognition of its multi-dimensional approach to ensuring high-quality service and delivery. The Provider of Training Excellence accreditation recognises professional training providers that offer high-quality training provision. It is an award recognised by the Professional Development Consortium, a research organisation that is also home to the CPD Standards Office.

GTC E-Learning

GTC offers over 3000 online training courses, certified and accredited by leading government and professional institutions in the world. Developed by leading faculty and industry experts, and consultants, our award winning online training courses are delivered in the following formats:

- **E-Learning**
- **Virtual Training**

What is included in the E-Learning?

E-Learning

Our E- Learning courses are cost effective, flexible – self paced, trackable and measurable Access E – Learning courses in the following categories, faculties, brands and certifications and enjoy world class E – learning experience:

- Information Technology (IT)
- Sales
- Leadership and Management: Six Sigma, Scrum, Prince 2

Virtual Training Courses

Our virtual training courses offers the experience of Instructor Led Classroom (ILT) training and the convenience and flexibility of Virtual Training. Highly interactive and engaging, our highly trained experts and consultants create an immersive experience for all participants.

All GTC courses can be delivered virtually.

OTHER

Blended Live

Enjoy the best learning experience and fast – track your learning with our Blended Live Training which offers you the combination of specialist Instructor-Led Training, the immersive experience virtual and the flexibility of E – Learning courses.

GTC VIRTUAL Training

Our virtual training courses offers the experience of Instructor Led Classroom (ILT) training and the convenience and flexibility of Virtual Training. Highly interactive and engaging, our highly trained experts and consultants create an immersive experience for all participants. All GTC courses can be delivered virtually.

GTC recognise the fact that it is not always feasible for delegates to make the most of the learning opportunity if they are required to study for a minimum of five hours per day for five days. We now offer our clients the opportunity to enrol participants for these five-day courses, but for one day a week over five weeks.

What is included in the Virtual training?

Course Materials

- Delegate welcome pack including all course materials
- Complimentary published literature
- Selected case studies
- Course certificate and CPD certificate

Online Resources

- Training materials
- Publications
- Ebooks

Further Benefits

- Accredited international trainers
- Training material and workbooks
- Personal development action plan to implement newly gained skills

Certifications

- Internationally recognised certifications and accreditations

GTC ONLINE Training

These training programmes are based purely on an e-learning basis whereby participants who enrol on this type of training will be given access to the GTC e-learning platform and they will complete their programme over a set period.

What is included in the Online Learning?

Oil and Gas Geological Consultancy Solutions

We offer Geological consulting services in the Oil and Gas industry; our portfolio of services include Core Description and Geological Field Seminars.

Our core description service is second to none. Not only will it save you time, it will also save you money. Why? No longer will you have to ship your core to Europe or the Middle East for analysis; our in-house experts come to you!

Advantages of using our core description services:

- Expertise in both conventional and unconventional cores
- Comprehensive core report
- Digital archive of extracted core-data in editable format
- Accurate 'core shift' for well logs through appropriate calibration
- Integrated reservoir characterisation for lithofacies and depofacies
- Cost effective, on-time delivery of world-class products.

Services

Sedimentology

This will show grain size, sedimentary structures and trace fossil suites. Besides a graphic representation, you will receive a description, process interpretation and environment of deposition.

Sequence Stratigraphy (Cycles)

If you have biostratigraphic data we can mark sequence boundaries and maximum flooding surfaces directly on the core. Alternatively, we can also mark key sequence stratigraphic surfaces in core and add systems tracts.

Conversely, if you have regional stratigraphic markers/tops (from well logs or seismic data) we can upload those to our core description panel for comparison.

Bioturbation Index

A bioturbation index shows the intensity of sediment churning and the preservation of original sedimentary fabric. Bioturbation can both enhance and degrade reservoir quality and we recommend a column that shows the BI so that you can determine the effect of bioturbation on the porosity and permeability of your reservoirs.

Porosity-Permeability & Saturation Data

We may incorporate available porosity-permeability and saturation data (pks) in order to graphically demonstrate the relationship between rock type/ lithofacies/depofacies and reservoir quality.

Fractures

We can document fracture type (extension vs. shear), aperture size, mineral fill, porosity within fractures, density, intensity, orientation and determine the stress field in your area of interest. After providing a description of fractures we can provide a diagnosis whether fractures might influence production from your wells. If this is the case, we then recommend a detailed fracture study. Our specialisation is restricted to sedimentology and stratigraphy. However, we can align you with the right contacts for detailed fracture studies to increase production from your fractured reservoirs.

You'll be surprised to learn that our costs are significantly lower than most similar businesses in the US and Western Europe, including the likes of Core Laboratories, Terra Tek, Fugro Robertson and Ichron. But, our quality of work is far superior because of our integrated approach.

GTC Energy go beyond the routine core descriptions by solving critical problems such as understanding depositional environments, sandbody geometry, reservoir heterogeneities and interconnectivity. We're so confident in our expertise that we will even waive our fee if you're not 100% satisfied.

GTC Consulting

GTC Consulting has been collaborating with organisations to achieve sustainable, transformational change for more than 10 years. Our experience – in Africa, Asia, Europe and the Middle East – is unrivalled. We offer a unique combination of expertise, intellectual rigour and local understanding to help you find the solution that will work for you in the following service areas:

- **Project Management Support and Consultancy**
- **Government Advisory and Management Advisory Services**
- **Business Introductory Service**

GTC Consulting

Services

Project Management Support and Consultancy

GTC Consulting has the expertise to take a project from initial concept through detailed planning to the implementation and final evaluation. Our input can also cover associated tasks such as feasibility studies, risk analysis and optimisation of financial, procurement, reporting and administrative systems.

Government Advisory and Management Advisory Services

These are many and varied, but include making the business case for PPP projects and improving their legal and institutional frameworks at a federal, state and local government level. Our comprehensive support service for governments include policy advisory and development support, looking at the mechanisms for improving the delivery of government programmes, due diligence questions and communications strategies.

Business Introduction Service

GTC Consulting has specialist experience of Africa and the developing Asian and Middle Eastern markets, and boasts an enviable record of helping to achieve transformational change in those regions. Our wealth of experience means that we are able to offer a tailored suite of recommendations for western organisations seeking to gain entry into many African markets at local or national level.

Case Studies

Project Management Support and Consultancy

Our client had spent eight years and approximately $60 million dollars in executing the micro, small and medium enterprises project in Nigeria. The project was World Bank funded and three pilot states were strategically selected as beneficiary states. The project had come to an end and an audit was required to measure the impact of the project.

GTC Consulting won the bid to carry out an operational audit on the project in 2011.

Methodology:

The four components of the project were also audited, specifically the access to finance for MSMEs and the business development service. The economy, efficiency and effectiveness of the project management unit and the executing agency were evaluated and scrutinised by our team of practitioners. The audit exercises were made up of a team of auditors who worked directly with the client and the project management unit on their premises, gathering records, evidence and information.

Location: Abuja, Nigeria
Field researches across all 37 states.

Results:

The operational audit was successful. GTC was able to make valuable recommendations confirming the impact of the MSME project and validating the extension of the project into phase 2.

Government Advisory and Management Advisory Services

The government of the Maldives wanted to develop the Prisons Parole Act to be administrated in the Maldives. They faced challenges in sourcing experts in the field with appropriate experience to draft the Prisons Parole Act, taking into account the existing legislation in the Maldives.

Methodology:

Literature review, investigations and interviews. A team of six experts from GTC – two lawyers and four constitutional review experts – were delighted to draft the Prisons Parole Act for the Maldives government. GTC then emerged as the successful bidder in a highly competitive process.

Location: Maldives

Results:

GTC developed the draft for the Prisons Parole Act for the Maldives government within a six-week period, which was eventually signed into law by the Maldives government.

The GTC Consulting Cycle

Our approach to every assignment carefully considers your requirements, as stated in the terms of reference, and these translate into a series of steps aimed at achieving the objectives of the assignment. The successful execution of any project requires persons with the requisite experience and capabilities and the adoption of strong project management techniques.

We will deploy using our global service delivery approach, which contains six phases, as shown in the diagram opposite. We believe our approach provides a framework for the application of a consistent process for all engagements. It provides a structured approach to managing different phases of all projects, including design, delivery, implementation and sustainability.

6

Methodology

GTC has a proven methodology to help you generate sustainable development from your resources – human, technical and intellectual.

1 Solving problems requires valid information

Information might be explicit – stored and recorded; and it might be tacit – carried around inside people's heads. We'll work with you to unlock the information that holds the key to a project's success

2 Good decisions demand free and open choice

Making decisions is easy. Making decisions that somebody else will support is not so easy. We'll help you design and advocate the solution that will work best for you and your organisation.

3 Effective implementation requires commitment

People commit to whatever they believe will benefit them. Instruct people, and they may comply – for a while. But, to achieve sustainable transformation, you'll need to engage their heads and hearts. We'll help you inspire lasting commitment in the people who will make change happen.

Our Key Assets

GTC Consulting provides professionalism, in-depth knowledge and attention to detail – key attributes that have highlighted the GTC brand and underpinned our values for over a decade. We don't import solutions. We discover them, together. We'll listen to you. We'll design and deliver projects with you. We'll walk the extra mile with you, recognising the challenges that you face, cutting through the red tape and celebrating your achievements with you.

What's our philosophy?

Simple: We believe that collaboration is the key to success.

We work to our strengths.

Four assets have helped us grow over the past decade. They can help you too.

Local Knowledge

We always start by asking the people who know.

We work where we understand the local situation: your culture, your values and the challenges you face

Expertise

There's nothing as useful as knowledge wisely applied.

Our consultants have intellectual and practical knowledge validated by extensive research and commercial experience

Innovation

Sometimes you have to look where you least expect to find it.

Nobody has a monopoly on wisdom or creativity. In a modern world, solutions are no longer the preserve of a single community or industry. We're always on the lookout for the truly innovative solution: it might be anywhere

Global Experience

In a networked world, we combine international and local experience.

We work globally, continuously refining our knowledge as we can work with senior public and private executives in a wide range of market environments.
