

# Adobe Photoshop CC–Level 1

## COURSE OVERVIEW

This foundational course provides a comprehensive introduction to the fundamentals of Adobe Photoshop, equipping participants with essential skills to create and enhance digital images. This course covers basic concepts such as navigating the Photoshop interface, working with layers, selections, retouching, cropping, resizing, and adjusting images. Participants will also learn how to apply filters, use tools for drawing and painting, and enhance photos through color correction and manipulation. By the end of the training, participants will be able to confidently utilize Photoshop's core features to produce high-quality graphics and images.

## WHO SHOULD ATTEND?

The course is ideal for graphic designers, photographers, marketing professionals, web designers, artists, and anyone interested in learning the fundamentals of Adobe Photoshop. It is suitable for beginners with little to no experience in Photoshop, as well as professionals looking to refresh their skills and enhance their ability to create and edit high-quality digital images for various applications.

## COURSE OUTCOMES

Delegates will gain the skills and knowledge to:

- Use the most common basic features of Adobe Photoshop CC.
- Identify the components and capabilities of Photoshop CC.
- Create basic images.
- Manage selections and layers.
- Modify and repair images, and manage color.
- Refine images by adjusting layers, using camera raw and applying advanced image refinement.
- Import, export, organize, and save files.

## KEY COURSE HIGHLIGHTS

At the end of the course, you will understand;

- Introduction to the Photoshop interface and workspace.
- Working with layers.
- Creating and modifying selections.
- Basic image retouching and correction.
- Cropping, resizing, and adjusting images.
- Applying filters and effects.
- Using drawing and painting tools.
- Performing color correction and image enhancements.
- Saving and exporting high-quality graphics and images.

All our courses are dual-certificate courses. At the end of the training, the delegates will receive two certificates.

1. A GTC end-of-course certificate
2. Continuing Professional Development (CPD) Certificate of completion with earned credits awarded
