

ISO 22301 Foundation – Business Continuity Management System

COURSE OVERVIEW

This training course is designed to help participants understand the fundamental concepts and principles of a business continuity management system (BCMS) based on ISO 22301. By attending this training course, participants will learn more about the structure and requirements of the standard including the BCMS policy, the top management's commitment, internal audit, management review, and continual improvement process. After attending the training course, you can sit for the exam and, if you successfully pass it, you can apply for the "PECB Certificate Holder in ISO 22301 Foundation" credential. A PECB Foundation certificate shows that you have knowledge on the fundamental concepts, principles, methodologies, requirements, framework, and management approach used in business continuity.

WHO SHOULD ATTEND?

This course is ideal for professionals involved in business continuity and risk management, individuals seeking foundational knowledge of ISO 22301 and BCMS, members of continuity or crisis management teams, auditors, consultants, compliance officers, and managers aiming to strengthen organizational resilience and recovery planning.
