

ISO 45001 Foundation- Occupational Health and Safety Management System

COURSE OVERVIEW

This course introduces the basics of occupational health and safety and the key requirements of ISO 45001. It covers essential elements of an OH&S management system, including leadership commitment, worker participation, OH&S policy, planning, controls, emergency response, performance evaluation, and continual improvement. Upon completion of the course and passing the exam, participants can apply for the internationally recognized “PECB Certificate Holder in ISO 45001 Foundation,” which confirms their ability to support OH&S implementation projects.

WHO SHOULD ATTEND?

The ISO 45001 Foundation training course is ideal for managers and consultants seeking to understand the fundamentals of occupational health and safety, individuals aiming to create safer and healthier workplaces, those interested in the core requirements of ISO 45001 for an OH&S management system, and anyone pursuing a career in occupational health and safety.
