MB-800 Microsoft Dynamics 365 Business Central Functional Consultant Training

COURSE OVERVIEW

Dynamics 365 Business Central is an application that is built and optimized for small and medium scale enterprises. This course is designed for Functional Consultants associated with any Dynamics 365 application and IT professionals who want to expand their knowledge of Business Central. After the training, you will be eligible to manage the financial matters of your company, automate the supply chain, secure sales smarter, improve customer service, optimize your operations, and boost project performance. It will help you if your business is facing a lack of integration, logistics issues, or is unable to handle inventory and transactions. Businesses with more scalability, increased mobility, and availability in the cloud are also the beneficiary of this software solution.

WHO SHOULD ATTEND?

The course is suitable for IT professionals looking to expand their knowledge of Business Central, as well as functional consultants working with or associated with any Dynamics 365 application, especially Dynamics 365 Business Central. It is also beneficial for those who have working experience with Dynamics 365 Business Central and possess a basic understanding of Dynamics 365 apps and Business Central.
