Scaled Scrum Product Owner Certified (SSPOC™)

COURSE OVERVIEW

Scrum is a widely used agile methodology known for its adaptability, flexibility, and effectiveness in delivering value quickly throughout a project. The Chief Product Owner handles day-to-day business decisions in large projects with multiple Scrum Teams and Product Owners, overseeing the Prioritized Product Backlog and coordinating work across teams. This role also involves collaborating with the Chief Scrum Master and other Product Owners to identify common resources and components needed throughout the project. Upon passing the certification exam, applicants receive the Scaled Scrum Product Owner Certified (SSPOC™) certificate from SCRUMstudy.

WHO SHOULD ATTEND?

This course is appropriate for professionals interested in obtaining a working knowledge of Scrum and planning to become a Chief Product Owner, or Program Product Owner, or Portfolio Product Owner.

COURSE OUTCOMES

Delegates will gain the skills and knowledge to:
- Provide an understanding of the principles in the Scrum framework;
- Provide a practical working knowledge of Scrum including roles, meetings, and artifacts;
- Prepare participants to be comfortable with implementing Scrum in their organizations; and
- Prepare participants to take SSPOC™ exam upon completion of the course.
