Scrum Developer Certified (SDC™)

COURSE OVERVIEW

Scrum is a fast, flexible agile method that delivers quick value, ensures transparency, and supports team accountability and progress. This Scrum Developer Certified (SDC™) training course is an entry level certification for Scrum Team members and those who interact with any Scrum Team. The objective of this certification is to ensure that Scrum Team members know enough about Scrum to effectively contribute to a Scrum project. Successful candidates will be awarded the Scrum Developer Certified (SDC™) certification by SCRUMstudy™ after passing the certification exam. An online proctored exam will be conducted at the end of the course.

WHO SHOULD ATTEND?

This is highly recommended for everyone in a company who works in a Scrum Team or anyone who interacts with any Scrum Team. This will also be very useful for those who are interested in understanding the basics of Scrum and how this method could be used effectively.

COURSE OUTCOMES

Delegates will gain the skills and knowledge to:
- Understand the basics of Scrum
- Effectively contribute to a Scrum project.
- Apply Scrum effectively in Scrum/Agile projects.
- Be prepared to take the SDC™ certification exam and pass.
- Apply the concepts in their day-to-day jobs.

KEY COURSE HIGHLIGHTS

At the end of the course, you will understand;
- Introduction to Scrum as an agile methodology for effective project management.
- How to focus on the roles and responsibilities of Scrum Team members.
- Key principles of Scrum, including transparency, accountability, and continuous progress.
- Preparation to contribute effectively to a Scrum project.
- Online proctored exam leading to Scrum Developer Certified (SDC™) certification.

All our courses are dual-certificate courses. At the end of the training, the delegates will receive two certificates.
1. A GTC end-of-course certificate
2. Continuing Professional Development (CPD) Certificate of completion with earned credits awarded
