TS410- Integrated Business Processes IN SAP S/4 HANA

COURSE OVERVIEW

The TS410 course offers an introduction to core business processes in SAP S/4HANA. It covers key modules such as finance, procurement, manufacturing, sales, project systems, and warehouse management, showing how they integrate across the SAP system. The course focuses on end-to-end process integration, with hands-on exercises and system demonstrations. It is also ideal for those seeking foundational SAP knowledge or preparing for the C_TS410_2020 certification, it also explains key integration points within the SAP S/4HANA Intelligent Enterprise. Participants are encouraged to allocate additional time for self-study to reinforce course content and prepare effectively for the exam.

WHO SHOULD ATTEND?

This course is ideal for beginners to SAP, business users, functional consultants, project team members, and IT professionals seeking foundational knowledge of SAP S/4HANA business processes. It is also suitable for those preparing for the C_TS410_2020 certification exam or involved in SAP implementation and transformation projects.

COURSE OUTCOMES

Delegates will gain the skills and knowledge to:

- Navigate confidently within the SAP S/4HANA system.
- Describe how various business transactions are performed in SAP S/4HANA.
