

# Mass Casualty Incident Management and Medical Triage Systems

## COURSE OVERVIEW

This course covers the essentials of managing mass casualty incidents (MCIs) and implementing medical triage systems. It focuses on organizing effective responses when casualties exceed available resources and includes practical training on rapid assessment, treatment protocols, and evacuation procedures. Participants will learn to prioritize patients, allocate resources, and coordinate teams under pressure. Realistic scenarios will provide hands-on experience to improve decision-making and enhance survival outcomes in high-stress emergency settings.

## WHO SHOULD ATTEND?

The course is designed for healthcare professionals, emergency medical service providers, disaster response teams, hospital staff, public health personnel, and first responders involved in emergency and disaster management. It is also valuable for policymakers, and administrators in health sciences or emergency management who wish to enhance their competency in managing MCIs and understanding medical triage systems.

## COURSE OUTCOMES

Delegates will gain the skills and knowledge to:

- Develop a solid understanding of the principles and practices of MCI management.
- Demonstrate proficiency in the use of different medical triage systems and tools.
- Apply critical decision-making skills in high-pressure disaster situations.
- Coordinate effectively within multidisciplinary teams during emergencies.
- Enhance readiness for real-world disaster and mass casualty scenarios.

## KEY COURSE HIGHLIGHTS

At the end of the course, you will understand:

- Comprehensive coverage of disaster preparedness and response frameworks.
- Training on globally recognized triage methods (e.g., START, SALT, JumpSTART).
- Simulation-based exercises and case study discussions.
- Practical guidance on incident command and resource management.
- Focus on real-world applicability for healthcare and emergency response settings.

All our courses are dual-certificate courses. At the end of the training, the delegates will receive two certificates.

1. A GTC end-of-course certificate
2. Continuing Professional Development (CPD) Certificate of completion with earned credits awarded
